June 2024

Transnational Partners' Meeting in Nicosia

Talent project

The TALENT Project aims to promote equal education, prevent exclusion, support Dual Careers, create a new pattern of behaviour to benefit young, talented children, and prepare for lifelong learning and professional sports from childhood.

4th Meeting of the Partners in Nicosia, Cyprus

The 4th Transnational Partners' Meeting took place on the 3rd and 4th of June 2024, in Nicosia, Cyprus. It was hosted by the Center for Social Innovation.

The meeting focused on the following main results:

1. The development of the E-STOP platform
2. The finalisation of the training material
3. The planning of the piloting phase.

The E-STOP platform will soon be ready and will host the training material in English and all partner languages (Serbian, Croatian, Italian and Greek). It will also host information on national sports committees to create a European network through a map which will be developed through the platform.

During the meeting, the partners agreed on the changes that need to be made to the training material in order to finalise it and begin its translation.

Effective communication and planning followed, to set the context and structure of the piloting phase. During the piloting, the partnership will involve 72 teachers and 72 coaches, and will provide training sessions using the educational material of TALENT. An essential part of the piloting is the evaluation which teachers and coaches will provide after the end of the piloting. The partnership will use the valuable feedback and adjust the material to better suit the needs of teachers and coaches.

Co-funded by
the European Union
